Link: <https://play.google.com/store/apps/details?id=com.wunderkinder.wunderlistandroid>

8. MCBBackup - My Contacts Backup(Installs: 1,000,000 - 5,000,000,Rating:4.2,Cost:free,Size:3.8M)

My Contacts Backup is the easiest way to backup and restore your contacts all from your phone without needing a computer or synchronization. You can backup all your contacts with a single touch and send yourself as a .vcf attachment via email.

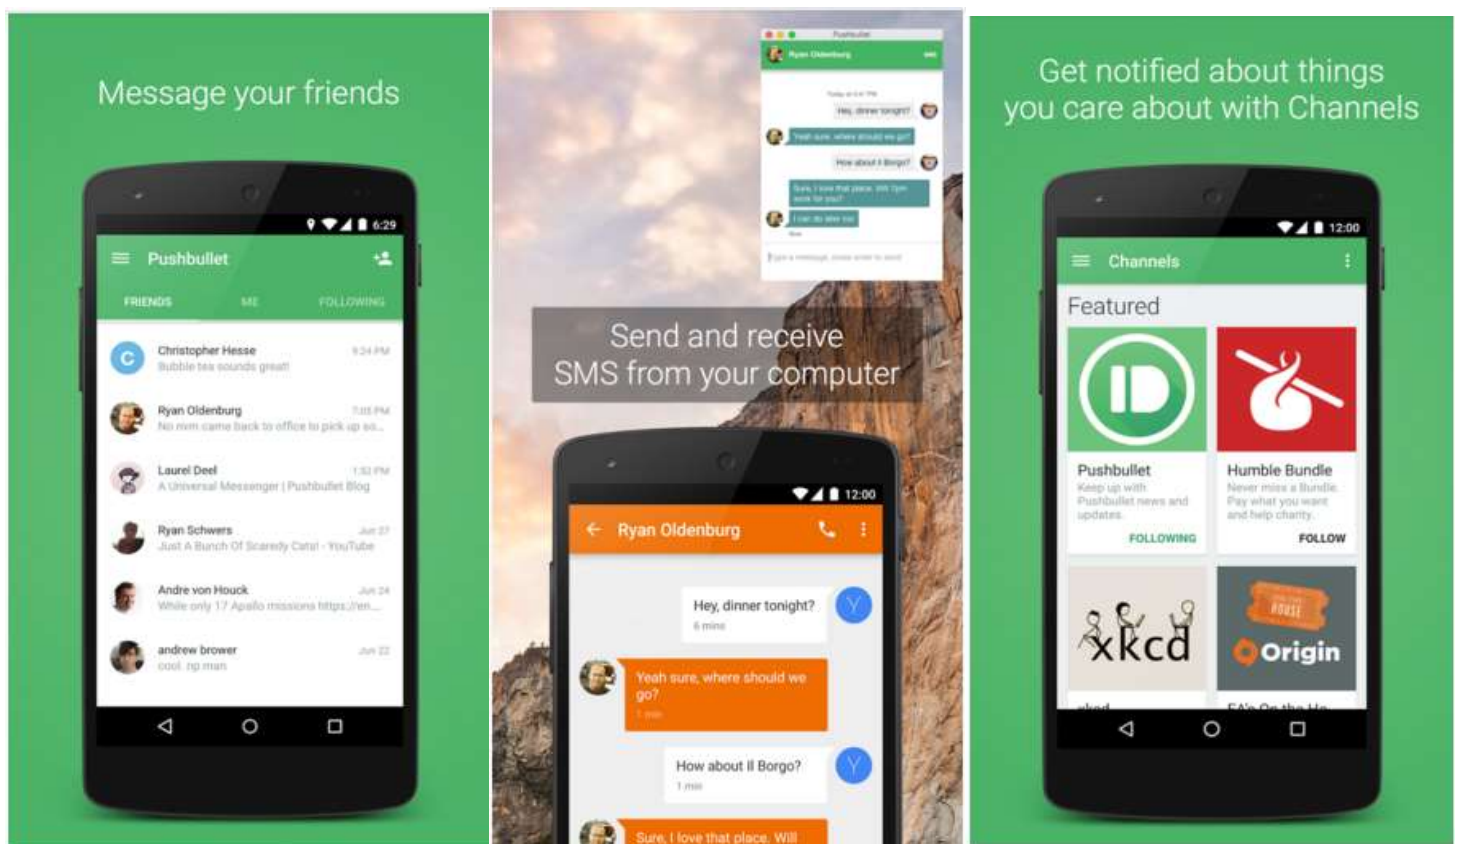

All contacts can then easily be restored any time by simply opening .vcf file in your mailbox.

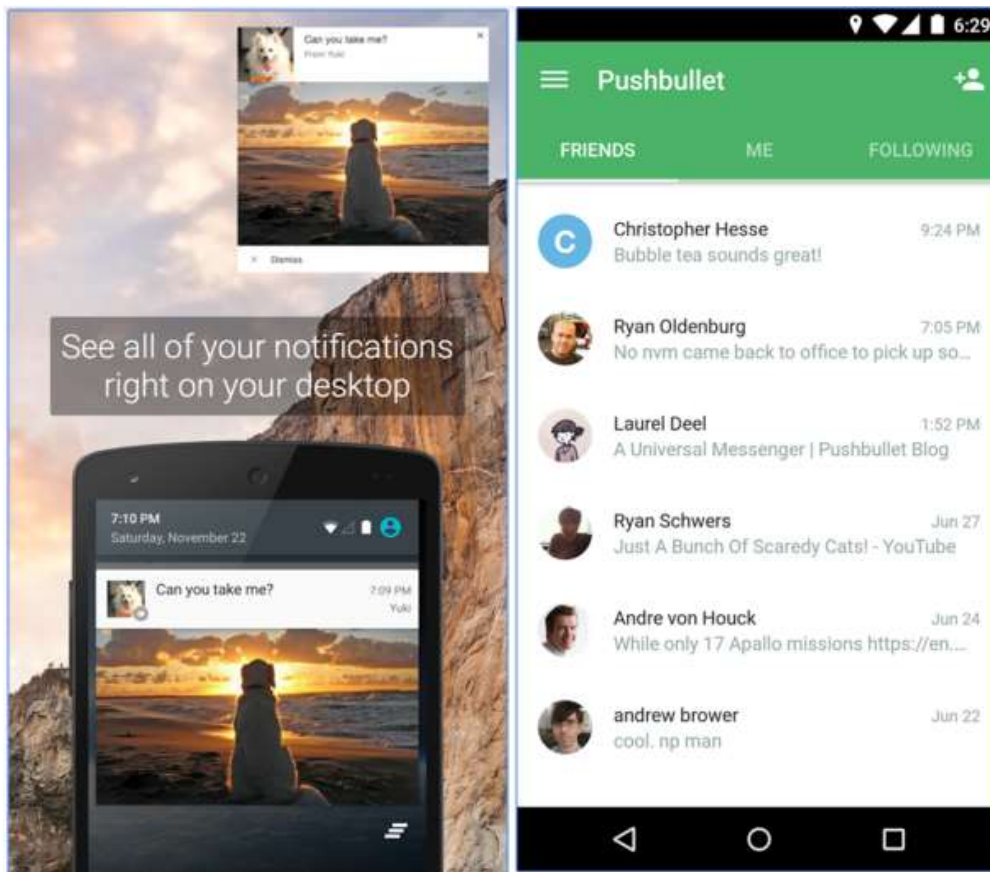

Key Features:

- * Offline Backup. No need to sync to any server. Just email the backup file to yourself.
- * Your address book is secure and safe. We don't access or store your contacts.
- * Easy restore. No need to any app to restore backup file. Just tap on the *.vcf backup file in the Android or iPhone mail client.
- * Easily transfer contacts between Android or iPhone devices using just email client.
- * Copy backup file to your computer via USB cable feature.
- * Set REMINDER to backup regularly (weekly or monthly)
- * Backup Contacts as VCF (VCard)

Link: <https://play.google.com/store/apps/details?id=com.globile.mycontactbackup>

9. Pushbullet(Installs: 1,000,000 - 5,000,000,Rating:4.6,Cost:free,Size:4.1M)

Pushbullet is "the app you never knew you needed", according to CNET. Here's why:

SAVE TIME

- Pushbullet lets you push files and links between your devices with as little as two clicks
- We are tightly integrated in over half a dozen platforms, making sharing easy regardless of what device you are using
- So fast you'll get Pushbullet notifications on your computer before your phone even rings

STAY CONNECTED

- Pushing is not just for your devices, you can also easily send links and files to your friends
- Conveniently send and receive SMS messages from your computer
- Reply to messages from many popular apps including WhatsApp and Facebook Messenger

KEEPING YOU INFORMED

- Pushbullet mirrors your phone's notifications to your computer, so you'll never miss an important phone call or notification again
- Interact with your notifications, whether to take action or to dismiss them
- Use Channels to subscribe to timely notifications about things you care about

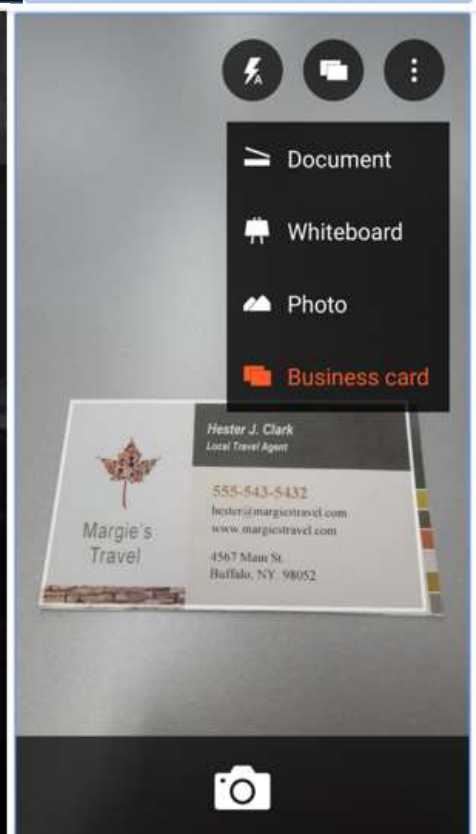

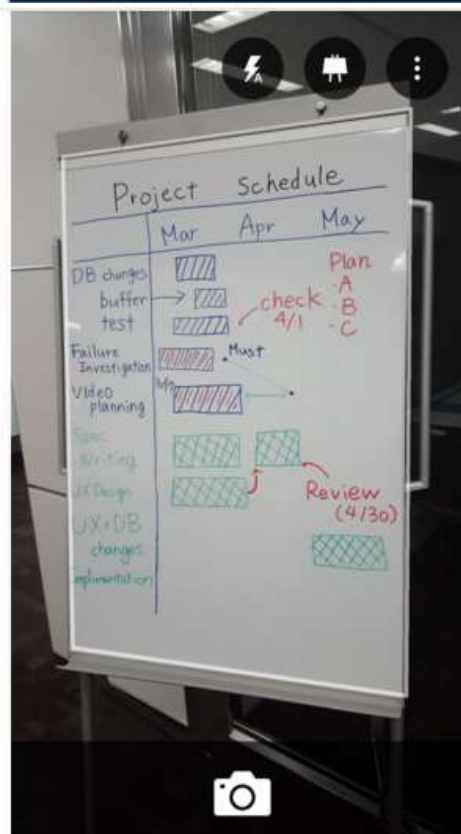

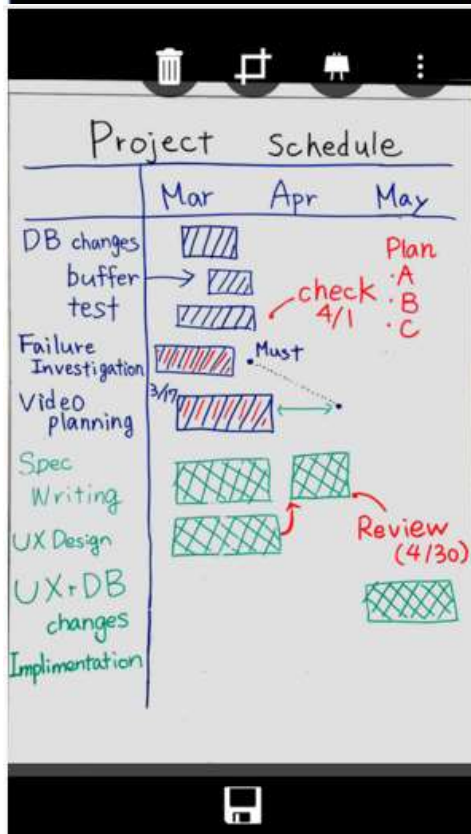

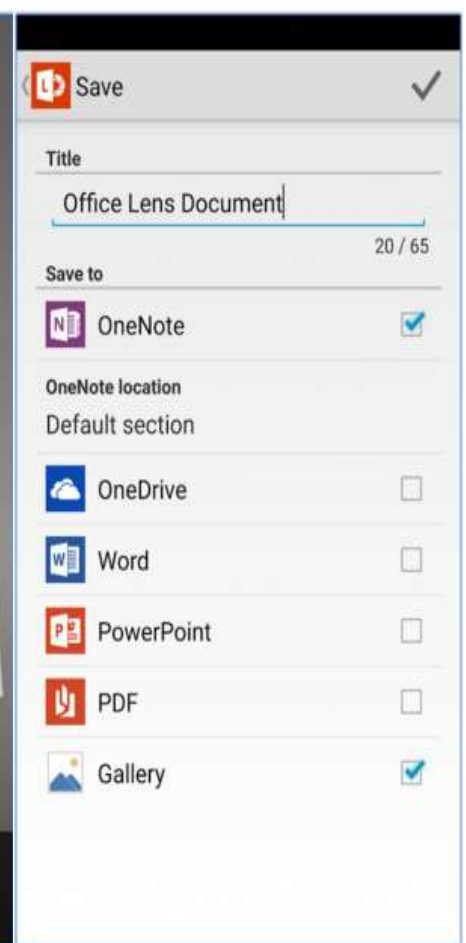

"Pushbullet Is a Fantastic App Every Phone Should Have" - Gizmodo

"TNW's Apps of the Year: PushBullet for Android" - TNW

- ★ Lightning fast link and file sharing
- ★ Secure: Protect your notifications and SMS with end-to-end encryption
- ★ Everywhere you are
- ★ Used by millions of people and counting
- ★ Translated into over a dozen languages by an awesome group of our own users

Link: <https://play.google.com/store/apps/details?id=com.pushbullet.android>

10. Office Lens(Installs: 1,000,000 - 5,000,000,Rating:4.5,Cost:free,Size:varies with device)

Office Lens trims, enhances, and makes pictures of whiteboards and docs readable. You can use Office Lens to convert images to PDF, Word and PowerPoint files, and you can even save images to OneNote or OneDrive.

Office Lens is like having a scanner in your pocket. Like magic, it will digitize notes on whiteboards or blackboards. Always find important documents or business cards. Sketch your ideas and snap a picture for later. Don't lose receipts or stray sticky notes again!

By installing the app, you agree to these terms and conditions: <http://aka.ms/olensandterms>.

Scenarios:

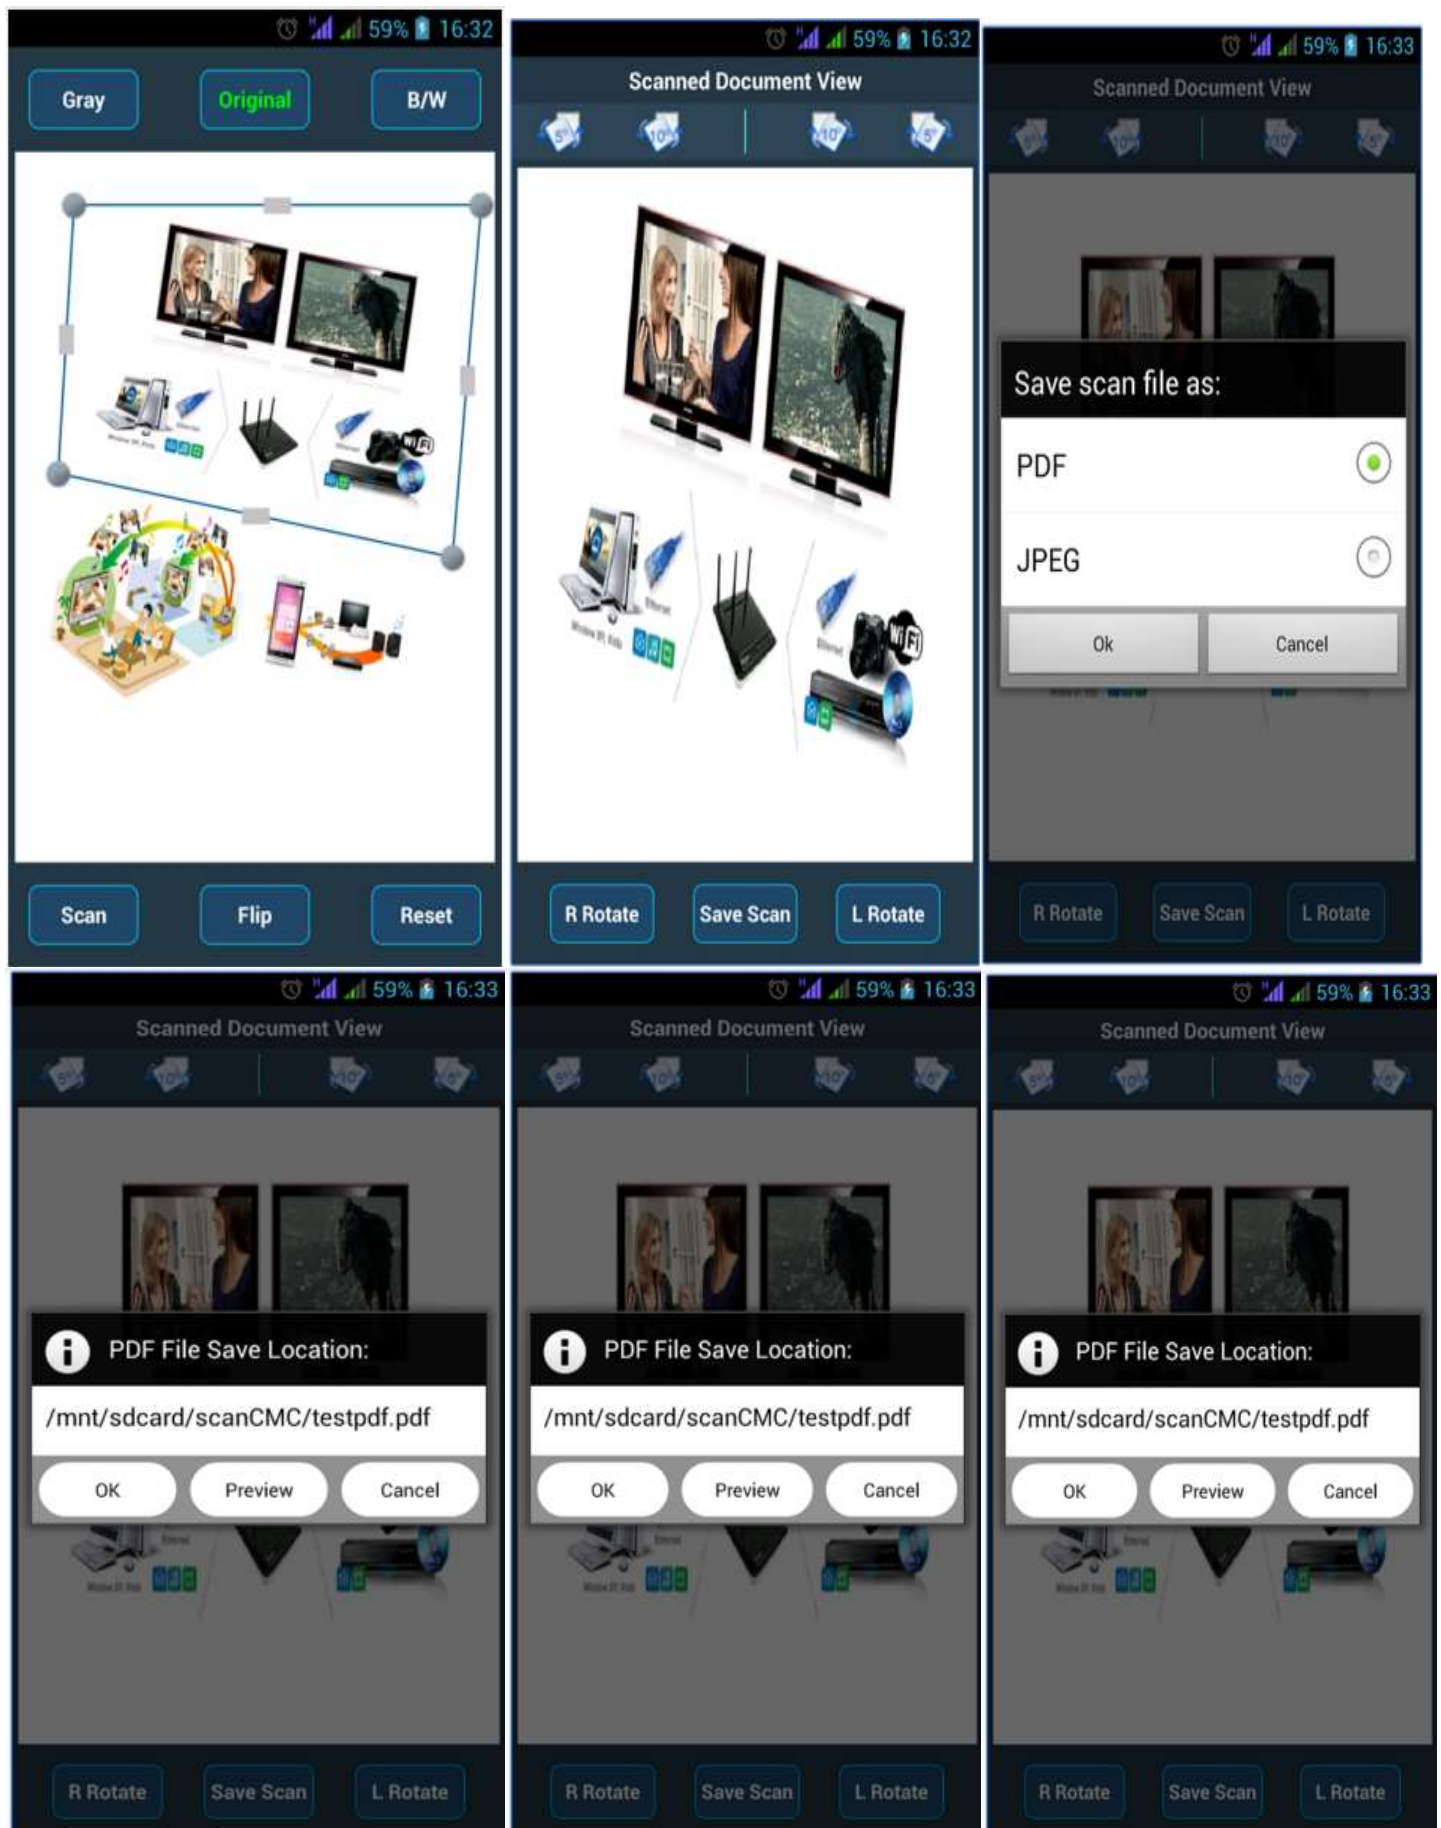

- Capture and crop a picture of a whiteboard or blackboard and share your meeting notes with co-workers.
- Make digital copies of your printed documents, business cards, or posters and trim them precisely.
- Printed text will be automatically recognized (using OCR) so you can search for words in images and copy and edit them.

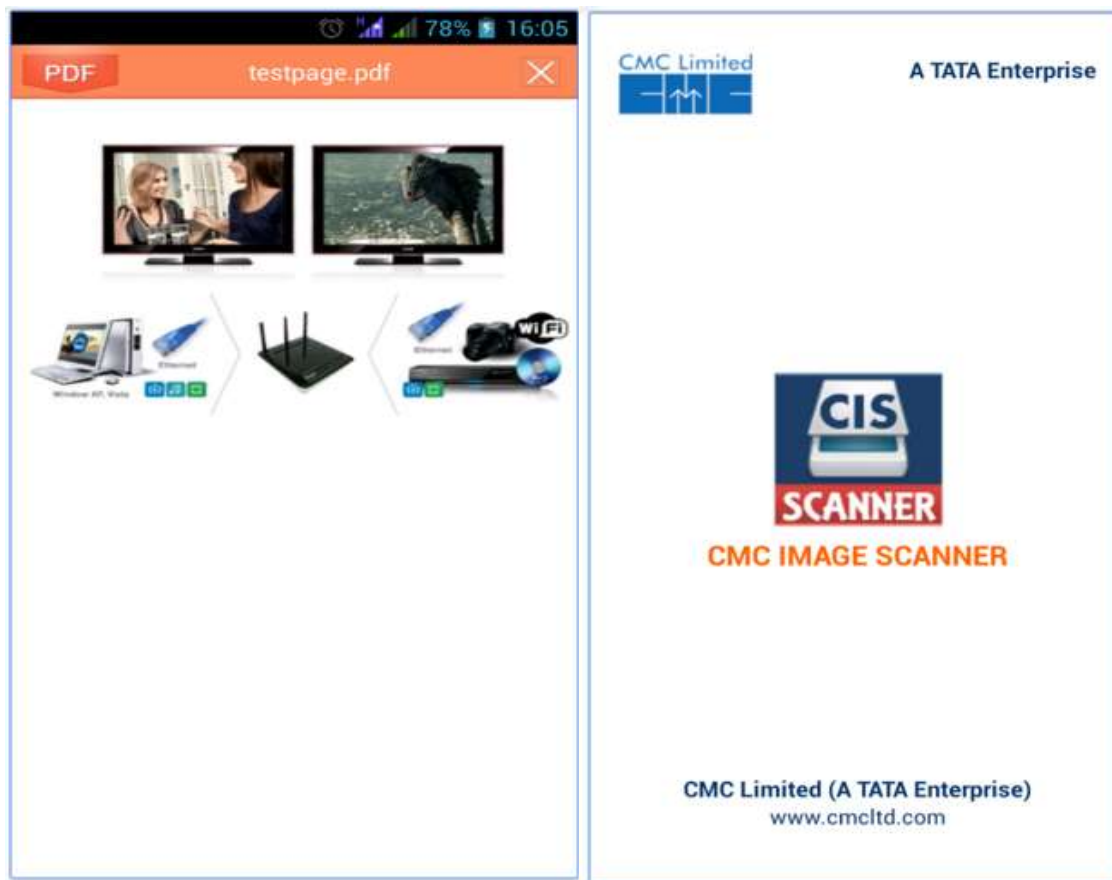

Key Features:

- With Whiteboard mode, Office Lens trims and cleans up glare and shadows.
- With Document mode, Office Lens trims and colors images perfectly.
- The scanned picture can be saved to your choice of OneNote, OneDrive, or locally on the device.
- Business Card mode can extract contact information and save it into your address book and OneNote. This feature works best with English, German and Spanish business cards. Support for more languages is coming soon.
- Choose to convert images to Word (.docx), PowerPoint (.pptx), or PDF (.pdf) files that are automatically saved to OneDrive.

Link: <https://play.google.com/store/apps/details?id=com.microsoft.office.officelens>

Jarvis is a one of a kind novelty personal assistant app with a cool factor like none other in the store, skyrocketing your phone's coolness factor to a whole new level.

NOTE: Jarvis currently supports only English language. If you are looking for a full version without In-App purchases, please check out our PRO version.

But don't get us wrong, Jarvis is more than just a show off, he can be your personal assistant keeping you informed about weather, news, calls, text messages and what more, control your phone settings like turning on WiFi, Flash, Bluetooth to name some, play songs over bluetooth, set reminders based on people.

Jarvis adds a cool factor to every thing he does making you look awesome!

Widget support

Access Jarvis from your lock screen with a single tap. Save notes & access them with Notes widget.

Wearable support

Jarvis runs on your Android wearable as well. Ask him to play songs by name, update your phone's background, change phone's settings & the list goes on.

WakeUp Alarms

Use Jarvis to set quick wake up alarms, this couldn't get any easier.

Calls & Messages

Make calls & send text messages with Jarvis, all you have to do is just tell him.

CloudVoice Dynamic conversations

Jarvis is dynamic in conversation. He has a variety of answers for variety of questions & some of them are outright funny. If he doesn't know any, he learns them over time.

Notifications

Get voice notifications about weather, news, battery status & power levels.

Automatic wallpaper update

Jarvis can update your home screen wallpaper automatically almost every day keeping it refreshed.

Theme support

Customize the appearance of the app by selecting from Mark I, Mark II & Mark III themes.

Device control

Control your phone settings like Flash, WiFi etc

People reminder

A one of a kind reminder which allows you to link reminders to your contacts so you get reminded when you get or make a phone call.

Media playback

Play media by name, album, artist. Shuffle the list, play or stop.

Bluetooth Support beta

If your device is running JellyBean or up, you can use your bluetooth headset to control Jarvis, play media over it and do tons of other stuffs. This feature is still in beta so don't be alarmed if some bugs pop up.

General searches

Ask Jarvis general questions like "Who is the first president of USA", "How many meters are in a kilometer", "Convert 100 cm to inches"

Office hours & Night mode

It's always irritating when your phone notifies you something when you are in office or when you are home getting a good sleep. Jarvis understands that and has you covered with two modes, Office Mode & Quiet hours

Contextually Aware

Jarvis is contextually aware of time & device settings and he adapts himself based on when you wake him up.

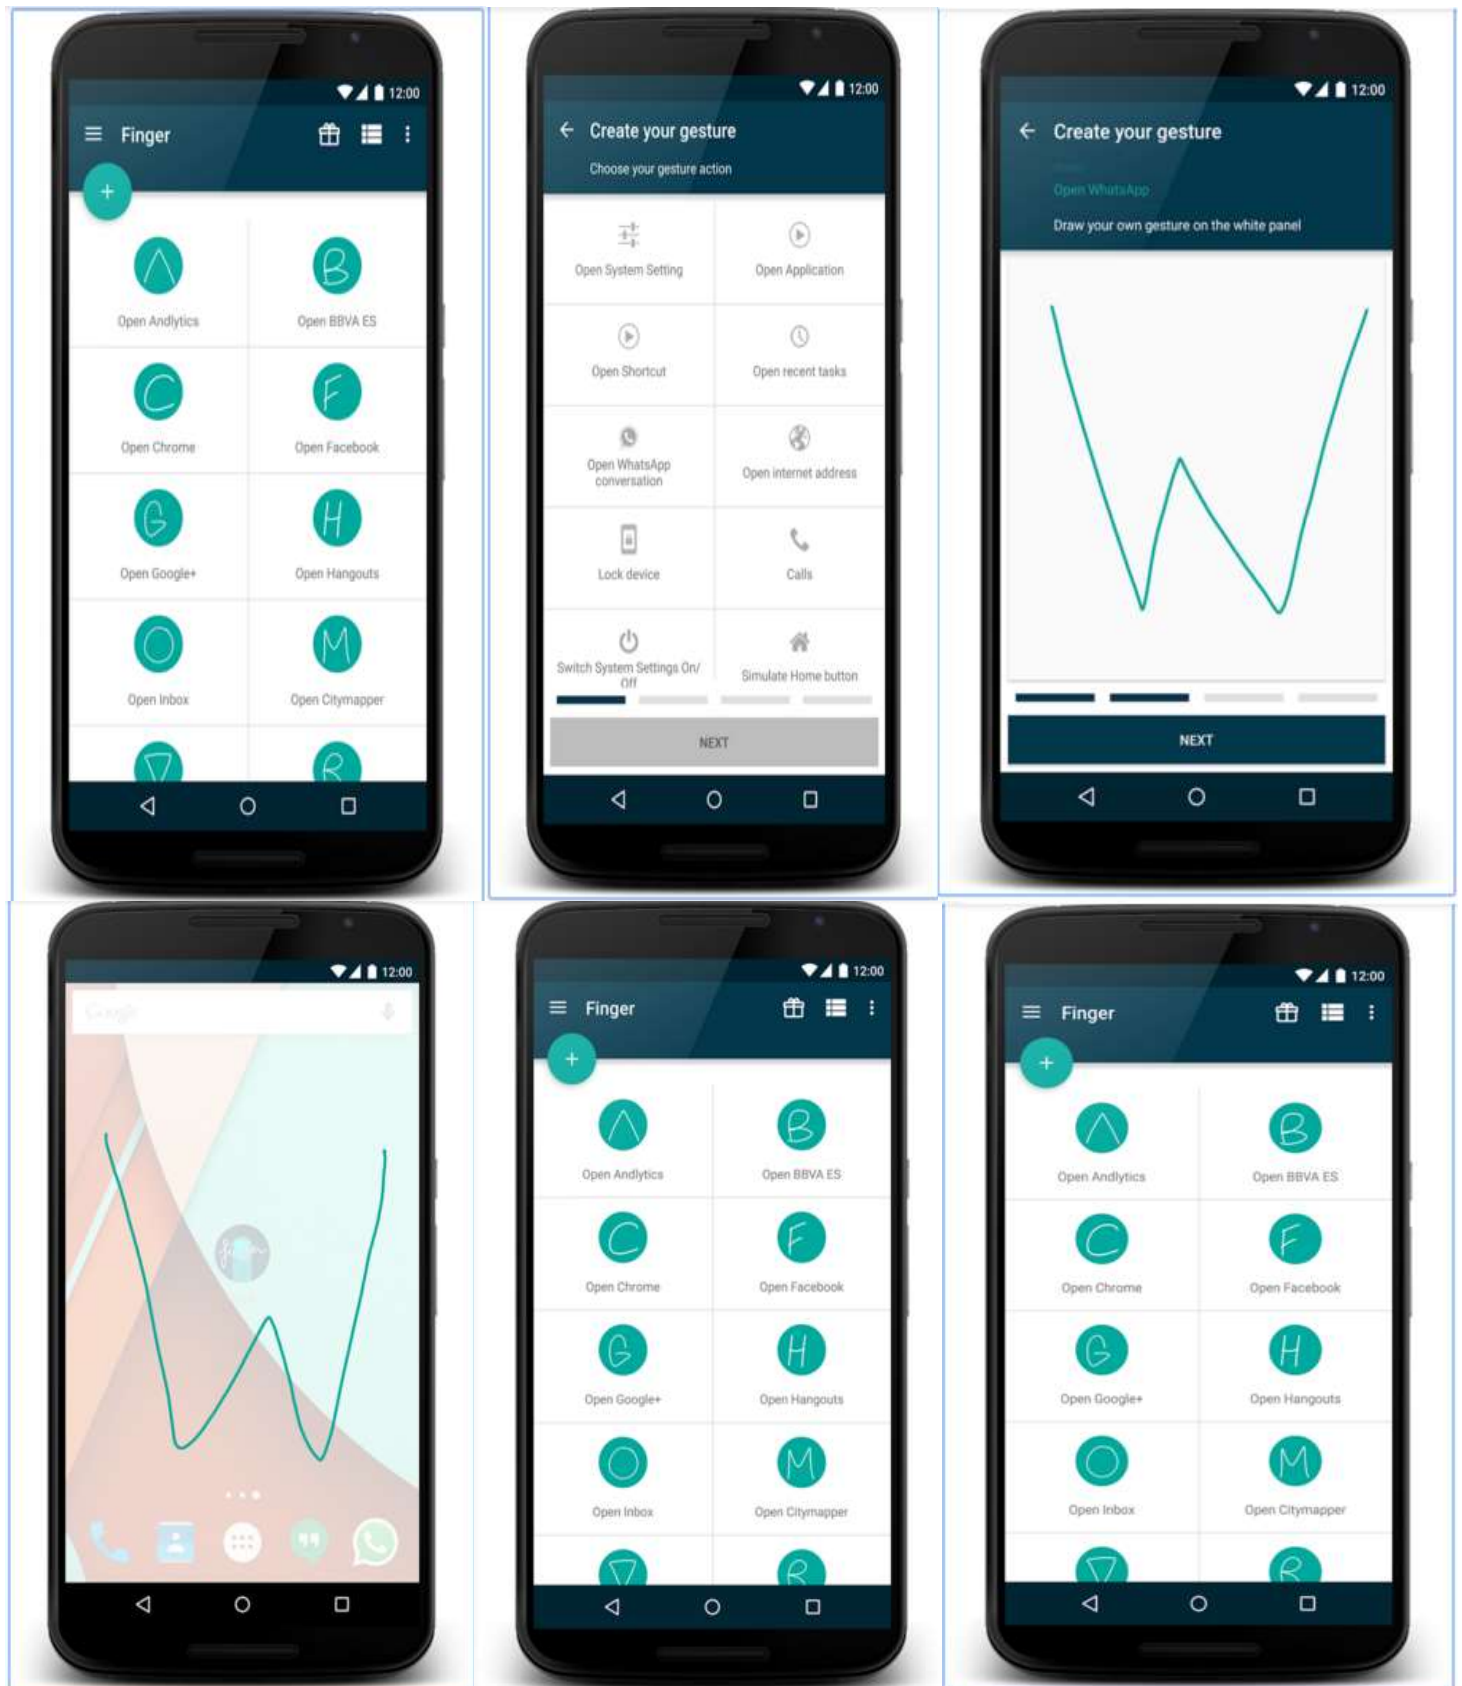

Easter eggs

Apart from the regular chores, Jarvis tries his best to keep you entertained. There are some easter eggs hidden inside the app, see if you can uncover them.

If you encounter any bugs or want to see a feature get implemented, please do write to us before giving a negative review.

14. Finger Gesture Launcher(Installs: 100,000 - 500,000,Rating:4.3,Cost:186Rs,Size:varies with device)

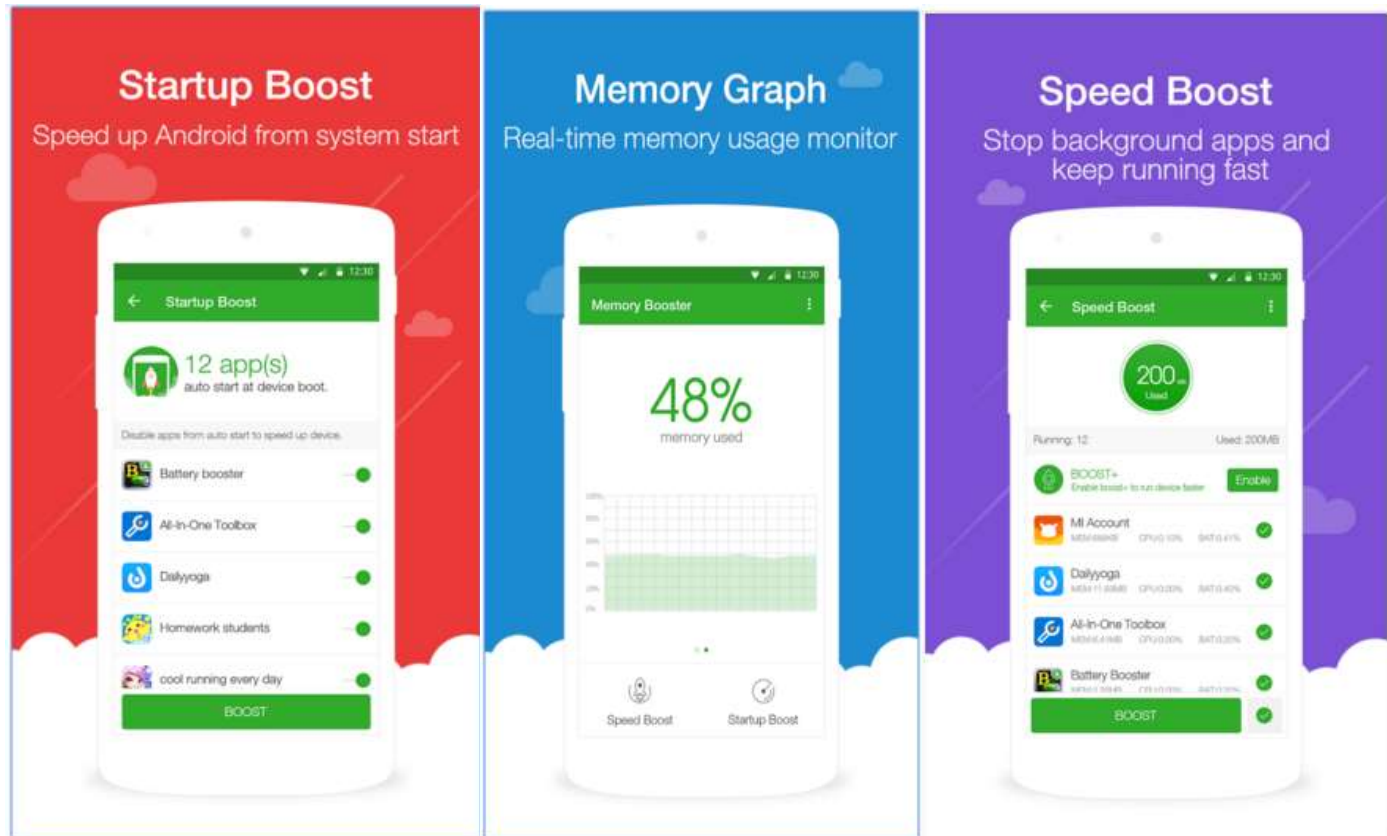

Finger Gesture Launcher is a very useful app if you usually use several applications at once, such as chatting with someone while surfing the internet or having a conversation on Facebook while writing with someone else on Whatsapp. Forget access the app drawer to navigate between your applications. Accelerate and streamline the use of your Smartphone, while still interacting with the rest of your applications. Finger brings shortcuts that allow jumping from one app to another by simply tracing a gesture with a finger on the screen.

Features:

- Launch apps
- Launch shortcuts
- Launch Whatsapp conversations
- Make calls
- Open websites in your browser
- Change system settings
- Simulate home, back and menu buttons
- Lock screen
- Root options

Link: <https://play.google.com/store/apps/details?id=com.carlosdelachica.finger>

15. Memory Booster (Full Version)(Installs: 100,000 - 500,000,Rating:4.3,Cost:free,Size:4.4M)

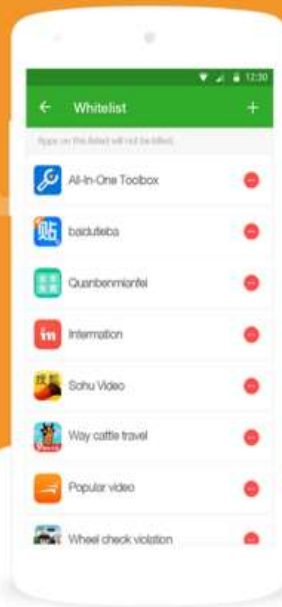

Quick Boost

Slow phone quick solution

Whitelist

Protect favorite apps from being killed

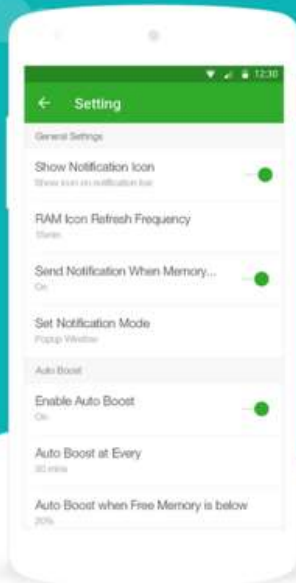

System Info

Info you may not know about your Android system

Settings

Customize boost behavior in your way

Memory Booster aims at enhancing system speed by resolving memory issues on Android devices with

- ★ Real-time RAM usage
- ★ Task Killer
- ★ Cache Cleaner
- ★ Garbage Collector
- ★ Auto Boost (in pro version)
- ★ Whitelist/Ignore list
- ★ System info

Supported languages: English, Korean, Japanese, Traditional Chinese, Simplified Chinese, Italian, French, Russian, Spanish, German, Turkish, Polish, Arabic, Greek, Indonesian, Slovak, Albanian

Memory level status and memory usage graph

Free memory level is the main factor that affects how fast system runs. Memory Booster shows you real-time free memory level, and provides a live chart to demonstrate how memory changes.

One-tap Quick Boost

Quick Boost recovers memory by killing running tasks, cleaning cache and system garbage. It rescues your phone from running slow and behaving abnormal in no time.

Customizable Auto Boost Features

To make memory boosting easier, Auto Boost can be set at different boost levels (General, Optimum and Ultimate boost) with multiple boost strategies: auto boost at regular interval, or when memory drops down to a certain level or when device is locked.

Whitelist Manager/Ignore List

Whitelist Manager protects fatal system processes from being killed. And it allows you to add favorite apps or remove unnecessary apps from the list.

Task Killer (ROOT beta embedded)

Task Killer shows all the running apps except those whitelisted, with detailed memory and CPU usage information of each running app. By (long) pressing the app name you will get more details and more options to deal with the app. Root killing is embedded in Task killer; so if your device is rooted, you can try root killing by pressing app name and select "Force Stop".

Homescreen widgets, shortcuts and status bar icon (optional)

Homescreen widgets, shortcuts and status bar icon provide memory info and boosting options outside the main app. With these, monitoring and handling memory issue becomes easy and handy.

This product is the Activation Code of CamScanner. Once purchased, you can upgrade CamScanner Free version to CamScanner Full version.

The world's No. 1 mobile document scanning and sharing today!

- * Installed on over 60 million devices in over 200 countries around the world
- * Over 50,000 new registrations per day
- * CamScanner, 50 Best Apps, 2013 Edition – TIME
- * Top Developer – Google Play Store
- * “The application employs its own image cropping and enhancing algorithm that leads to clearer images.” – Makeuseof.com
- * “CamScanner may just be the best deal for scanning documents on your phone.” – CNET.com

About CamScanner Full version:

- Support high-quality scans
- PDF files are created with no watermark
- Evernote/SkyDrive uploading feature will not expire
- No ads

About CamScanner Free version:

- PDF files are created with watermark “Generated by CamScanner”
- Evernote/SkyDrive Uploading is available for 7 days
- Ad-supported

How it works:

1. Download and Install CamScanner at <https://play.google.com/store/apps/details?id=com.intsig.camscanner>
2. Download and install CamScanner License
3. CamScanner will automatically upgrade to Full version upon the installation of CamScanner License

About CamScanner:

CamScanner helps you scan, store, sync and collaborate on various contents across smartphones, iPads, tablets and computers.

Features:

*Quickly Digitize Document

Just use your phone camera to scan and digitize all kinds of paper documents: receipts, notes, invoices, whiteboard discussions, business cards, certificates, etc.

*Optimize Scan Quality

Smart cropping and auto enhancing ensures the texts and graphics in scanned documents are clear and sharp with premium colors and resolutions.

*Extract Texts from Image

OCR (optical character recognition) extracts texts inside single page for further editing or .txt sharing. (Licensed only)

*Share PDF/JPEG Files

Easily share documents in PDF or JPEG format with friends via various ways: post on social media, send attachment or document download link through email.

*Print & Fax Documents

Instantly print out docs in CamScanner with nearby printer; directly fax docs to over 30 countries right from the app

*Collaborate on Documents

Want to get feedback on your documents? Invite friends or colleagues to collaborate on documents. They can view, comment and exchange ideas on documents in groups. (Registrants only)

*Advanced Document Editing

Make annotations on documents with a full set of editing tools. Also adding customized watermarks are made available to mark your own documents.

*Quick Search

When you have plenty of documents, you can use Tags to categorize and easily find them. In addition, OCR for Search helps you find texts inside image and notes. Just enter one keyword, you can quickly find the document you want. (Registrants only)

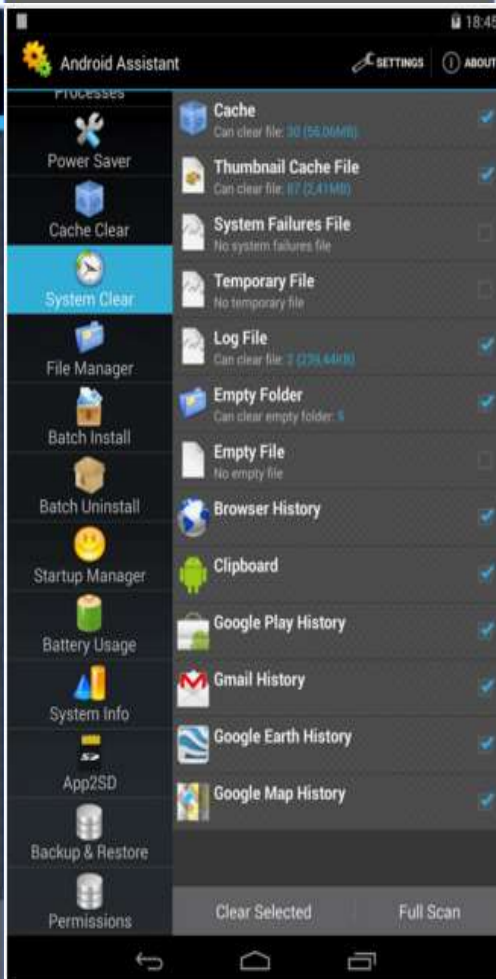

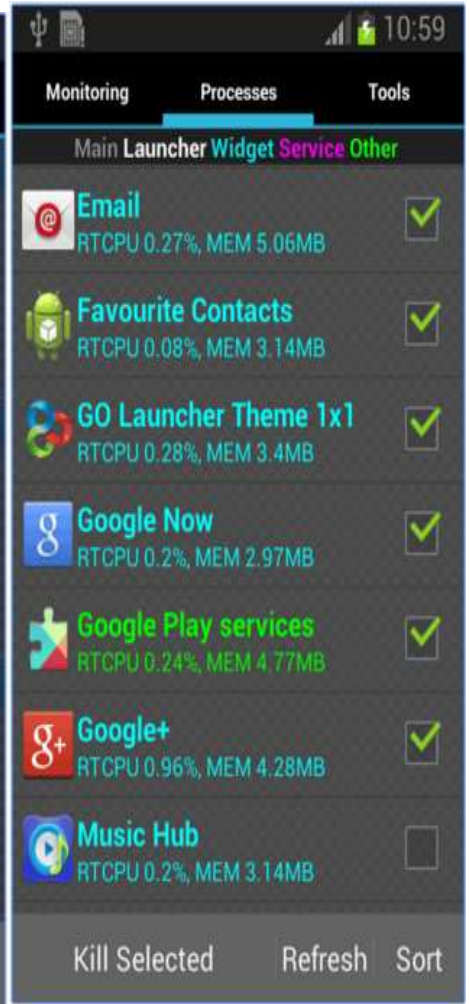

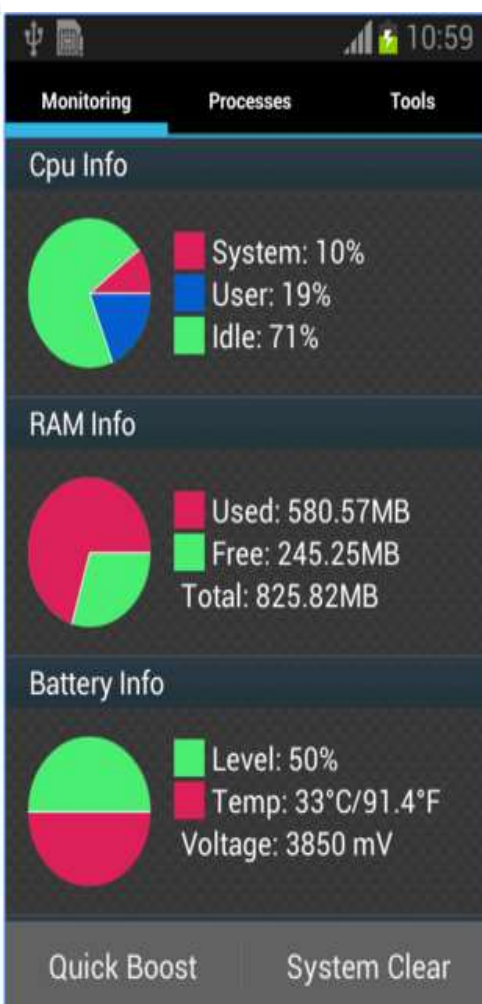

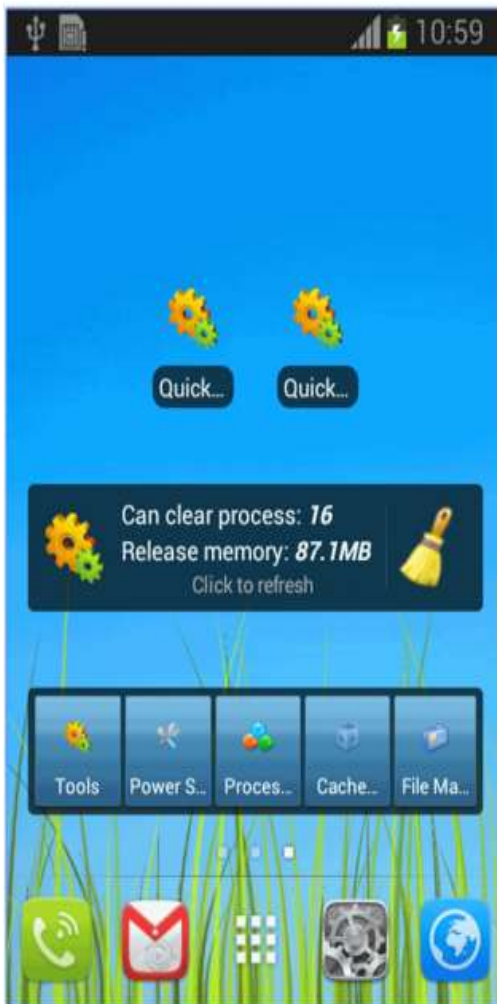

*Secure Important Documents

If you want to protect confidential contents, you can set passcode for viewing important documents; also, while sending document download link, you can set password to protect others from seeing it.

*Sync across Platforms

Sign up to sync documents on the go. Just sign in to any smartphone, tablet or computer (visit www.camscanner.net) you own and you can view, edit and share any document. (Registrants only)

18. Swype Keyboard(Installs: 500,000 - 1,000,000,Rating:4.1,Cost: Rs. 62.83 - Rs. 264.10 ,Size:varies
with device)

Swype is now even more customizable with brand new Star Trek™ keyboard themes and an all-new Emoji keyboard.

- Own the Original Swype Keyboard that Started it All – Accept No Imitations

SWYPE – YOUR KEYBOARD FOR LIFE:

Swype is all about YOU. Whether you're a fast tapper, exact typer or a Swype Ninja, get ready for a better, faster keyboard experience that gets smarter the more you use it. Swype pays attention to the way you input text and creates a personal language model that follows you from device to device. Swype – the world's most powerful keyboard.

SWYPE FEATURES:

NEW: Swype now features an all new Swype Store where you can purchase premium themes including Star Trek™, colorful themes and many more.

- Press and hold the Swype Key to access the Swype Store and customize your Swype keyboard

Swype's NEW Emoji Keyboard allows you to quickly browse through hundreds of Emoji's and express your emotions visually

- Press and hold the Enter key to quickly access the new Emoji Keyboard

BILINGUAL SUPPORT – Swype now lets you enter words from two languages at once! Words suggested by Swype will automatically adjust to your bilingual language preferences.

MORE CUSTOMISATION OPTIONS – Swype lets you customise your keyboard including long-press delay, vibration duration, keyboard height and mini left/right keyboards in landscape mode.

ACCESSIBILITY SUPPORT – Swype supports Android's "Talkback" and "Explore by Touch" accessibility features. When accessibility features are enabled the user's entered text will be spoken back.

PERSONAL DICTIONARY BACKUP & SYNC – Swype enables you to backup your personal dictionary to the cloud and synchronize it with any Android device where Swype is installed – never lose the words that you add to your personal dictionary again! (Opt-in feature)

SWYPE LIVING LANGUAGE & HOTWORDS keeps you always up to date with a real-time, crowd-sourced and news derived language model that gives you immediate access to our continuously updated language dictionary. Imagine having instant access to the hottest words and phrases that people are using at that moment. Swype’s Living Language will also further localise your dictionary with an additional dialect supplement for your preferred language. (Opt-in feature)

NEXT WORD PREDICTION – So intelligent, it's like Swype can read your mind! The most powerful language models on the market train your device to learn your unique vocabulary and predict your words based on previous usage, Swype can predict commonly used words and phrases such as “Return of the Jedi”, and “Dancing with the Stars.”

LANGUAGE DOWNLOADS – Swype supports more than 80 downloadable languages and dialects.

TABLET KEYBOARDS – Swype features three unique tablet keyboard designs: a full screen keyboard, a small and moveable keyboard, and a split screen keyboard.

DRAGON DICTATION – Swype comes with best-in-class voice recognition so you can go hands-free and dictate text quickly with a simple press of the voice key on the Swype keyboard. Dragon allows you to see phrase-based results in near real-time without leaving the dictation UI. With Dragon’s streaming dictation, you can see what you are saying as you say it!

KEYBOARD THEMES – With a wide variety of themes to choose from, you can personalize the look of your Swype keyboard to one that is all your own.

SMART TOUCH – Swype learns your unique style of input and continuously adapts to your typing patterns for a truly personalized and accurate keyboard experience.

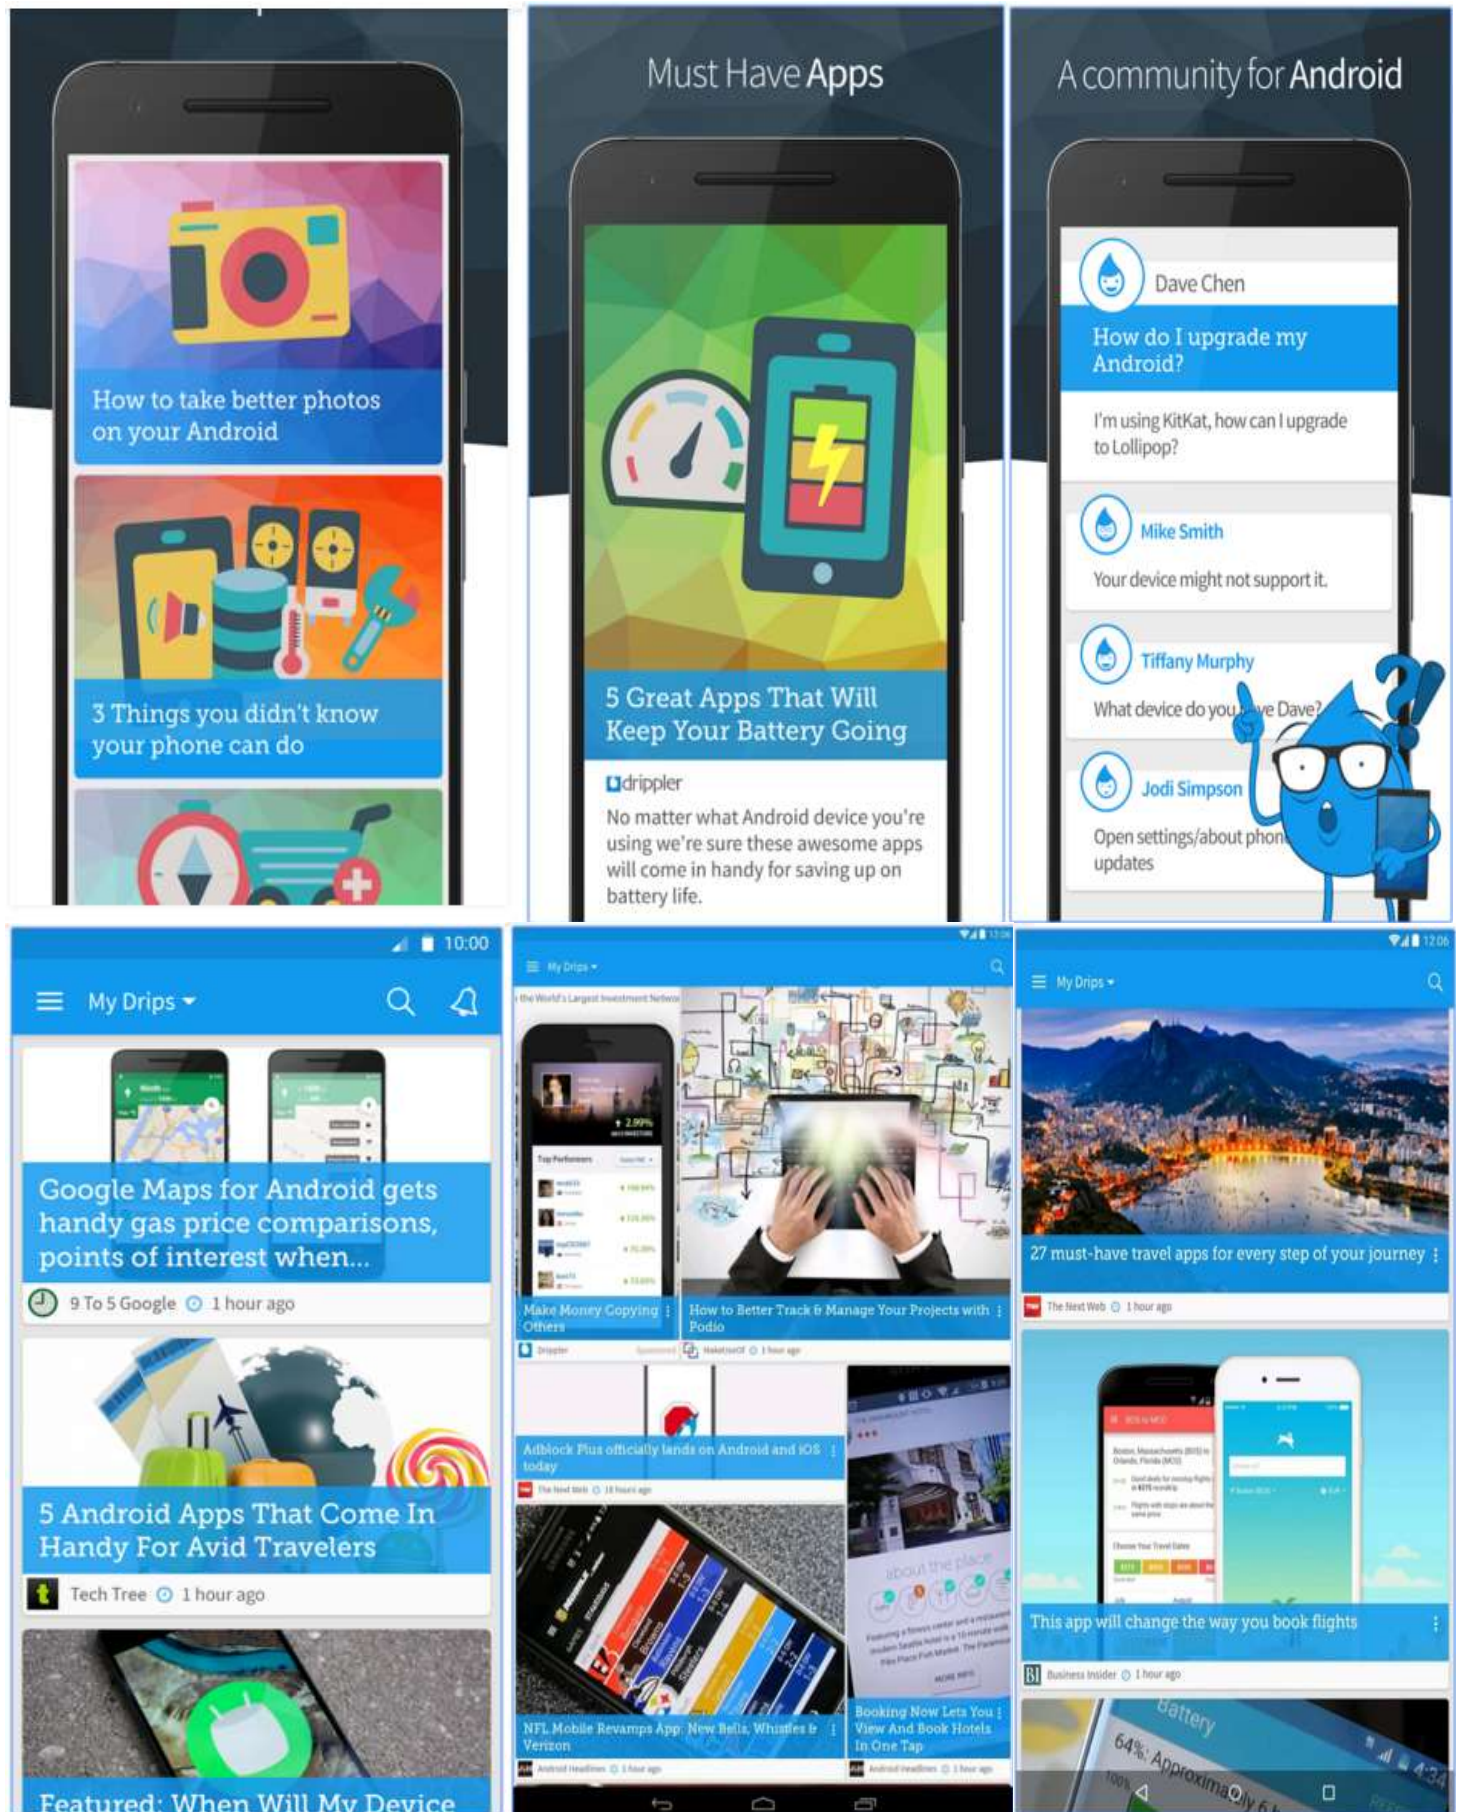

GESTURES – Use Swype gestures for quick everyday tasks such as:

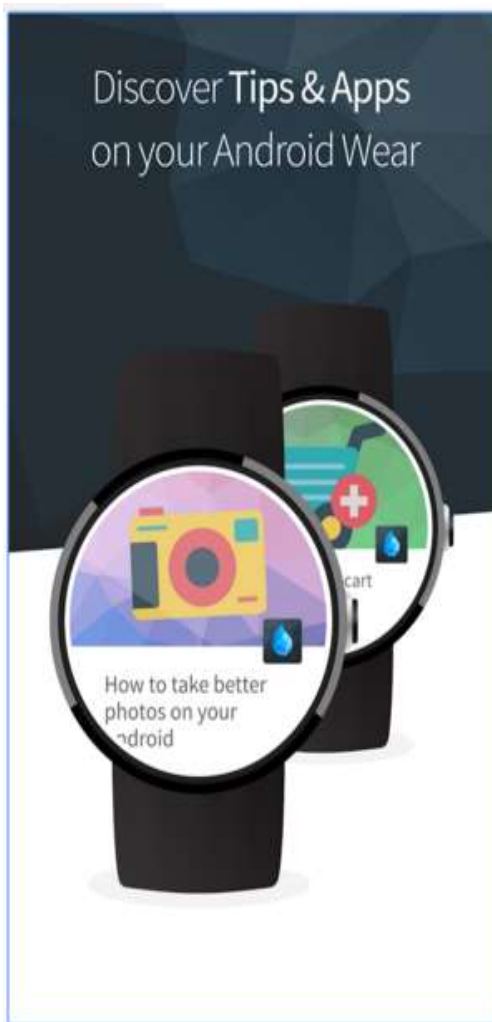

- Select All (Swype key to ‘A’)
- Cut (Swype key to ‘X’)
- Copy (Swype key to ‘C’)
- Paste (Swype key to ‘V’)
- Search (Swype key to ‘S’)

20. Audiobooks from Audible(Installs: 50,000,000 - 100,000,000,Rating:4.2,Cost:free,Size:varies with device)

Not enough time for all the books you want to enjoy? Download the app by Audible.com, an Amazon company, to listen to books on the go.

Immerse yourself in a great story anytime, anywhere, by downloading from a breathtaking range of 100,000+ titles to your Android device—from best sellers to classics, and everything in-between.

Now you can turn on and listen to a good book even when you can't pick one up—on your way to work, at the gym, while folding laundry, or any other time your eyes and hands are busy.

Features:

- Transfer books to your device over Wi-Fi
- Audiobook chapter navigation, bookmarking, sleep mode, variable narration speed, button-free mode
- Multitasking for background downloading and listening
- Switch between reading and listening with Whispersync for Voice (compatible Kindle device required)
- Access the Audible store to purchase more audiobooks
- Earn badges and keep track of your listening habits and audiobook achievements
- Get insider information about author events and more with the Audible Newsfeed

Listening with Audible is always time well spent. Download the free audiobook app now and discover a smarter way to use your smartphone.
