

Clean Master (Boost & AppLock)

(Installs: 500,000,000 - 1,000,000,000, Size: Varies(~17.12mb), Cost: Free, Rating: 4.7, Updated: November 25, 2015)

NEED TO FIND AN APP QUICKLY?

Fast access to everything is just a swipe away

GOT PRYING EYES AROUND YOU?

Protect privacy with AppLock!

TIRED OF PHONE FREEZING?

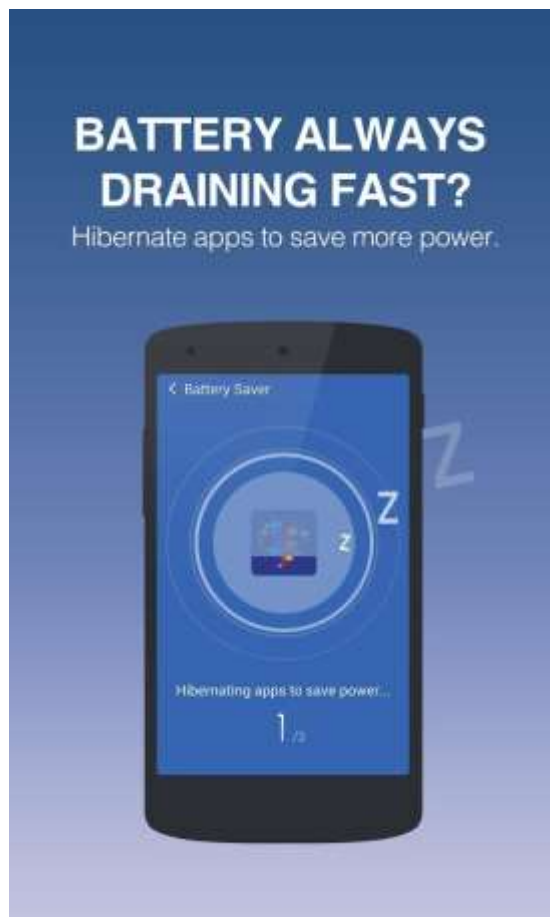

Boost phone speeds by 80%

TOOK LOTS PHOTOS & OUT OF SPACE?

Detect Duplicate Photos to sort it out!

Features

► AppLock

AppLock can lock Facebook, SMS, Contacts, Gallery, or any other apps you choose. With AppLock, only you can see the photos you protect. Guarding your privacy is easier than ever!

► Battery Saver

Battery Saver help to analyze battery status and hibernate running apps to save power. With Battery Saver, you can stop apps that waste lots of power and extend your battery life in 1 tap.

► iSwipe

iSwipe gives you quick access to other apps and tools without having to go back to your homescreen.

► JUNK FILE CLEANING

The junk-creating behavior of millions of apps has been analyzed so that Clean Master can efficiently hone in on its targets (cache and residual files) with perfect accuracy. Delete cache and residual files to reclaim storage, boost speed and improve the performance of your device and SD card.

► MEMORY BOOST

Boost your games and apps, free up memory (RAM), speed up your device and save more battery. Our 1 Tap Boost and Game Boost features make it easy to optimize directly from your homescreen.

► CPU COOLER

Cool off your device by finding and stopping the apps that are causing it to overheat and make your battery last longer!

► ANTIVIRUS

Ranked #1 by AV-TEST for the seventh time! A professional quality antivirus service scans devices in just 8 seconds, 500% faster than other paid antivirus apps. Scan the system, pre-installed and user-installed apps to keep your device safe from viruses, trojans, vulnerabilities, adware and spyware. Keep your privacy safe by scrubbing personal info from your device.

► APP MANAGER

Uninstall unwanted apps or bloatware and back up important ones. Some rooted devices will be able to move apps to the SD card as well as uninstall pre-installed and system apps. Our own Picks section lets you find useful apps that match your interests.

► Game Booster

Automatically improve your game speeds by 30%+ when launching games.

► Autostart Manager

Prevent apps from autostarting to speed up your device. (Root needed for this feature)

Summary:

Pros:

- 1) App packed with a punch. Lots of features and good positive feedback from users around the world.
- 2) It has 500,000,000 to a billion downloads.
